

Hello and welcome to Guardtime! Your computer has already been set up, there are just a few more things that you need to do:

Set a passphrase for your user account (minimum 12 characters)

Set a passphrase for the admin account (minimum 14 characters)

Read the 'Instruction on Endpoint Security' document (all security related software has been installed and configuration done on your computer)

Send conformation email as per 3.1/40 in the above document

Should you require assistance, please do not hesitate to contact [itee@guardtime.com](mailto:itee@guardtime.com) or the #helpdesk channel in [guardtime.slack.com](https://guardtime.slack.com)
